Education

- Institute of Technology of Cambodia (ITC)** 2024 - Present
- Institute of Science and Technology Advanced Development (ISTAD)**
C++ foundation (100% Scholarship)
2024 - 2025
- TUX Global Institute** 2025 - 2026
Data Analysis (75% Scholarship)

Hard Skills

- Programming Languages:** Python, C++, SQL
- Machine Learning Libraries** Pandas, Numpy, Matplotlib, Seaborn, Sklearn
- Database:** MySQL, PostgreSQL
- Backend:** FastAPI
- Tool & Technologies:** Excel, GitHub, VsCode, PowerBI, Colab, Streamlit, Postman

Soft Skills

- Critical Thinking
- Problem Solving
- Time Management
- Teamwork & Collaboration
- Flexibility

About Me

I am a Year 3 Data Science student at Institute of Technology of Cambodia with hands-on experience in machine learning, data analysis, and business intelligence. I have built projects using Python and Power BI, and I am passionate about using data to drive meaningful insights and decisions. I am motivated to grow through real-world experience and contribute as a dedicated intern.

Projects

Loan Prediction - Machine Learning Project

Python, Pandas, Scikit-learn, Matplotlib, Seaborn

- Cleaned and preprocessed a real-world loan dataset, performing EDA to uncover key approval factors.
- Built a Logistic Regression model achieving 86% accuracy in predicting loan approval status.
- Identified credit history and applicant income as the most influential features.

Adventure Works DW – Business Intelligence Dashboard

Power BI, DAX

- Cleaned and transformed sales data using Power BI's data preparation tools.
- Built interactive dashboards to visualize key business metrics including sales, revenue, and product performance.
- Wrote DAX measures to support dynamic reporting and data analysis.

Volunteer Experiences

Cambodia Blockchain Summit - Mar - Apr 2025
Event Flow Team

RYL Cambodia S16 - Booth Team May 2025

Science Technology and Innovation 4th by MISTI - Registration Team March 2026
